

COVID-19 VIRUS POLICY

Stashed Away is a self-storage facility in Bristol. To prepare for the possible spread of the COVID-19 virus we have implemented the following procedures even though we consider our business to be of low risk as social distancing inside the facility is maintained and the procedures below implemented.

Precautionary steps have been taken to protect staff and visitors to the facility.

- Before entry to facility we ask all persons to wash hands thoroughly – use our washroom facilities with antibacterial soap
- We will disinfect Washrooms regularly
- All door furniture and storage trolley handles to be disinfected
- Contact with visitors will only be verbal via intercom/telecom
- All new items being stored history to be confirmed
- Van to be disinfected after usage

With the technology that Stashed Away has in place we can operate completely on-line for new storage rentals, payments and even the facility to open doors remotely for incoming goods. Our ability to do this sets us above others and also provides a service which you need never to attend.
